Tell us about your dog's health

Veterinarian: _____ Phone: _____

Address: _____

Rabies exp. date; _____ Kennel cough exp. date: _____

Any allergies? _____

List any Medications and dosage:

Type of flea/tick prevention:

Wagtime welcomes dogs of all temperaments and activity levels and we will work with your dog to help him or her adjust to the daycare setting. We require that all dogs aged 1 year and up are spayed/neutered, as these dogs tend to adjust better to a group environment.

Vaccinations: We require all dogs to be up-to-date on their Rabies, Distemper & Parvovirus, Bordetella (kennel cough) and Leptospirosis (suggested) vaccines.

We recommend that all dogs use a flea- and parasite control product, but please do not apply these products on the day your dog attends daycare. We will ask for a copy of your dog's vaccination records at or before your playgroup placement appointment.

Please attach a copy of your dog's current vaccinations. Bring for "meet and greet" or email to: info@wagtimema.com

****Please note that all food and medications must be provided upon arrival**
